Skills

- **Languages/Frameworks:** JavaScript, TypeScript , C++ , Python, Node , Express , React , Next , Redux , Tailwind, REST.
- **Coursework:** Object Oriented Programming , Computer Networking, Data Structures and Algorithms, DBMS.
- **Other :** MySQL , MongoDB, Git , Github ,Microservices , Frontend , Backend , Full-Stack Developer, Linux/Unix.
- **Coding Profiles :** Leetcode (250+) , CodeChef (3 Star⭐), Codeforces (Newbie), Codestudio.

Education

Government College of Engineering Amravati	*Amravati, Maharashtra,India*	**Dec-2021 - Jul 2025**

- **Bachelor of Technology**
- Major in Computer Science and Engineering
- CGPA : 7.60

HSC (Junior College)	*Amravati, Maharashtra,India*	**2018- 2020**

- PCM and Computer Science as Vocational subject (Percentage 77%)

Projects

AIRLINE MANAGEMENT SYSTEM :   GITHUB

- Implemented the **Model-View-Controller (MVC)** architecture to create a robust and scalable code base, enabling efficient and seamless development.
- Developed the FlightAndSearchService, a **microservice** that stores all data related to flights, airports, airplanes, and city details, providing a reliable API for users to book flights
- Created the Booking service, responsible for booking flights and ensuring seat availability before confirming Reservations.
- Designed and implemented the **Authentication** service using **JSON Web Token (JWT)**, ensuring secure access to user data and creating a many-to-many relationship using **Sequelize ORM**.
- Developed the Reminder microservice with **Nodemailer** and **Cron jobs** to automate reminders for flight bookings. Utilized **RabbitMQ** message queues for efficient communication between the Booking Service and sending timely reminder emails.

YOUR RESUME :   DEMO GITHUB

- Developed a dynamic Resume Builder application using **ReactJS, HTML and CSS**.
- Designed a visually engaging and intuitive frontend interface with PDF download and **drag-and-drop** functionality, enhancing the user experience

EXPENSE TRACKER :   DEMO GITHUB

- Built an basic Expense Tracker App to keep track of your monthly expenses and remind you to be disciplined about your expenses and can reduce it by 30%..
- Implemented **React** and **React-router** to make this project.

Experience

Postman Student Expert	**Postman**	*Remote*	**11/2022 - Present**

- Did a training by Postman in which I implemented- GET, POST, PUT, PATCH DELETE Requests.
- Query Path parameters as well as Authorization and Body data (raw to JSON) in request.

Web Developer	**Prajwalan**	*Remote*	**02/2023-03/2023**

- Created Event Pages for the official website of improved traffic by 30% Techfest of my college **GCOEA.**
- Animated Event Pages and worked in all parts of the website as a member of the Web Development team.

Others

- **Google Developer Student Clubs Web Development Lead** : Organised and guided students in path of learning web Development. Organised learning sessions on Web dev technologies.
- Convenor of The Institution of Engineers (IE) Student Chapter 2023 , GCOEA.
- **Consolation Prize :** Came 4th out of 15 teams in ECOTHON for developing SOILBUDDY a crop, fertilizer recommendation and disease detector model which had and accuracy of 70%. **(04/2023)**
- Selected as contributor in **GirlScript Summer of Code**.
- **Problem Solving :** Solved 500+ problems on Websites Like Leetcode, Codechef, Codeforces, Codestudio.
- Codekaze College Rank 3 and AIR 2900 organized by Coding Ninjas.
